Note: With side-shift, load capacity subtract 440 lb.

Customization is available

Products and specifications are subject to be changed without notice

Standard Feature

- AC drive system
- Front capacity storage battery
- Emergency disconnect switch
- Rubber floor mat
- Grammer high elastic seat
- 2 Spools control valve
- 3 meters/118 inch 2-stage mast
- Adjustable steering controlled
- Rearview mirror
- Drive, lift, steering controlled
- Rear combined lamp
- Beeper
- Toolbox and file folder
- Hour meter, self-diagnose indicator

Optional Feature

- 3 or 4 spools control valve
- 4.3-6 meters / 169-236 inch 3-stage mast
- With attachment
- Option fork
- High capacity battery
- Speed carriage

CE
ISO9000

Electric Three-wheel Forklift

EP Electric Forklift Truck-J series

INTRODUCTION

The distinctive features of the new J series electric three-wheel forklift are as follows:

- Versatility of use due to compact design and minimal operating space requirements. Compact dimensions combined with superb maneuverability.
- High stability, both when stationary and cornering, due to long wheelbase, low centre of gravity and wide tyres.
- Economy of operation, resulting from minimized maintenance costs, e.g. Low-wear brakes.

An integral full-vision side-shift.

The wide mast, low scuttle and high seating position gives the operator an excellent view, reduces loading damage and accidents.

The incorporation of ZF® developed components, including finely engineered helical gears, assured low noise, high quality and a longer service life.

PANEL

simple, comprehensive

CHASSIS & HYDRAULICS

A fully enclosed chassis frame house the drive motors. The hydraulic and drive components are protected against dirt and water.

Brakes

The J series three-wheel truck has three independent braking systems:

- Regenerative braking system
- Hydraulic wet disc brake system
- Toggle-type parking brake

DIMENSIONS

LOAD CHART

Comfortable seat can be upgraded to a luxury semisuspension version.

Full accessible 48 volt batteries with 400-600 Ah capacity are controlled by Danaher or Curtis AC control systems.

The state-of-the-art controller can be easily accessed at waist height, helping to reduce servicing time. AC technology to heavy-duty applications. The use of current is optimised and AC motors are brushless, which minimises servicing. Motors are very well protected against the water and dust. Roll-back is almost eliminated and higher travel speeds are attainable. More than thirty performance parameters can be adjusted to suit all type of load, working area and skill of the driver.

The adjustable steering Column ensure a comfortable working position.
