

VERA

Warehouse Steps

Made from welded ribbed aluminium, this quality folding warehouse stepladder is designed for heavy-duty professional use in stores, warehouses and other applications demanding a safe, secure folding heavy-duty stepladder. The Vera features a comfortable sturdy yet spacious lay out to the steps with a large secure 800mm guardrail and a large sturdy aluminium platform, which allows safe work at height in the most demanding environments.

The Vera is equipped with two reinforcing arms, which prevent sudden unwanted opening or closing, and are also utilised for raising & moving the ladder via two sturdy handles, which in turn operates two strong rubber wheels (Ø 125mm). The Vera has a very stable & rigid structure for comfort and security of use yet is effortless to move and access different work requirements in restricted space.

The Vera fully complies to the EN131 European Standard Thermo-shrinkable plastic package

Reinforced releasable arms and wheels

Aluminium platform

Handy Work tray at platform for tools and packages

Handrails for safe comfortable access
